

UrbanHealth transdisciplinary Forum

Hochschule für Gesundheit, Bochum, Februar 15th 2023

Prof. Dr. habil. Heike Köckler, Hochschule für Gesundheit

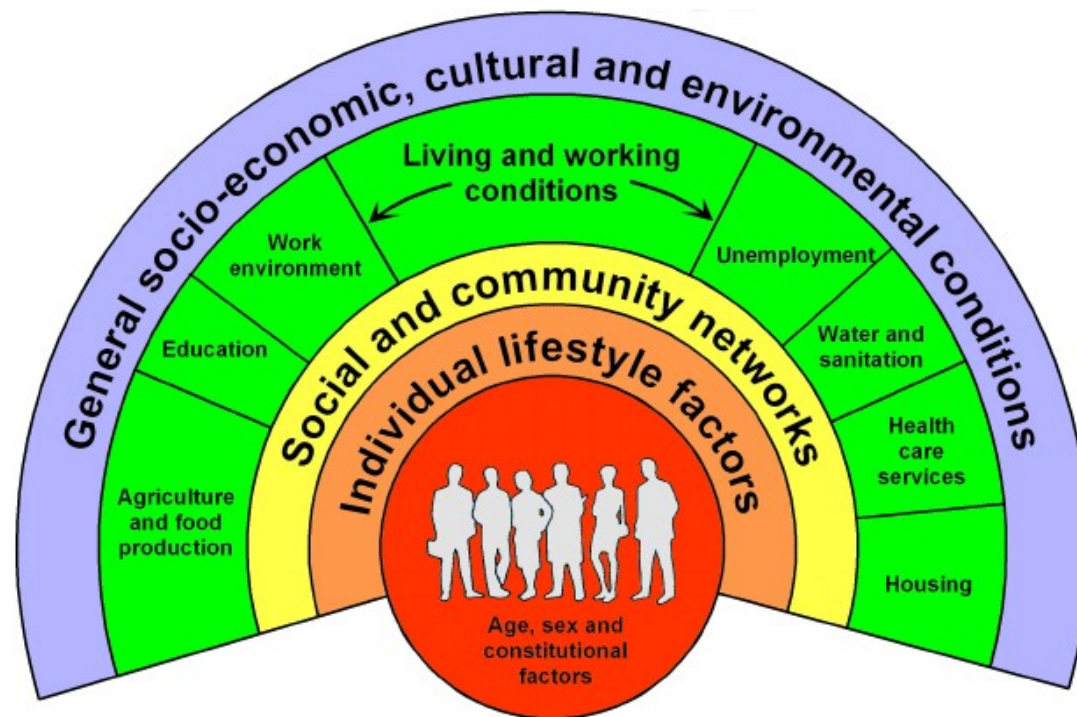

Welcome to University of Applied Health Science

Urban Health

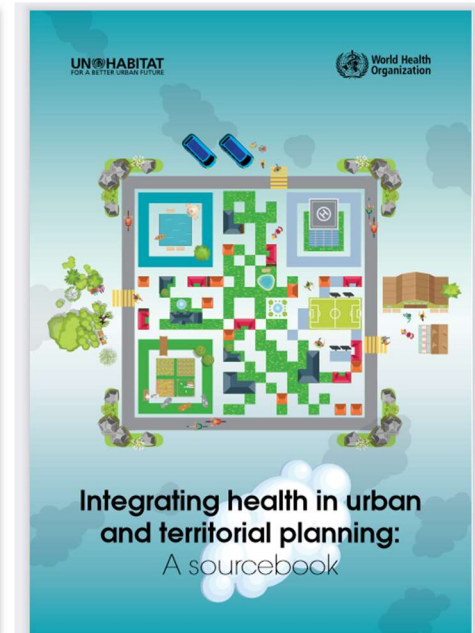

Understanding determinants of Urban Health for health promotion, prevention and care

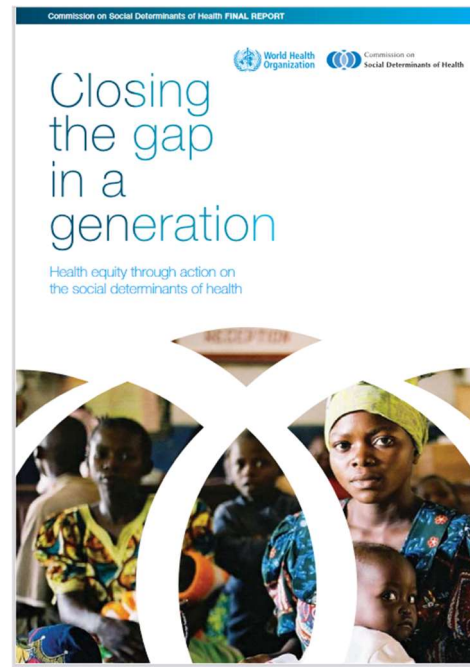

Source: Dahlgren and Whitehead, 1991

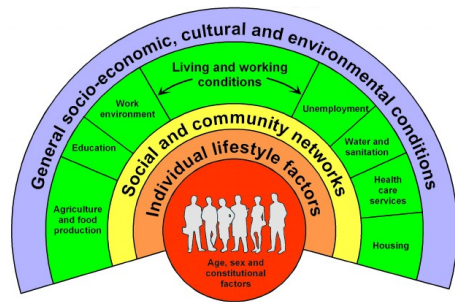

Understanding urban planning

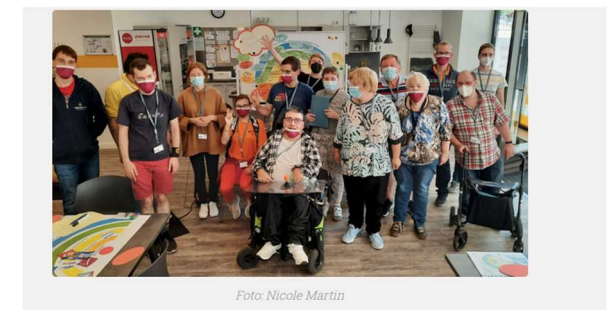

Understanding public/community health

Integrate knowledge to understand more

Source: Dahlgren and Whitehead, 1991

Trandisciplinary Discourse

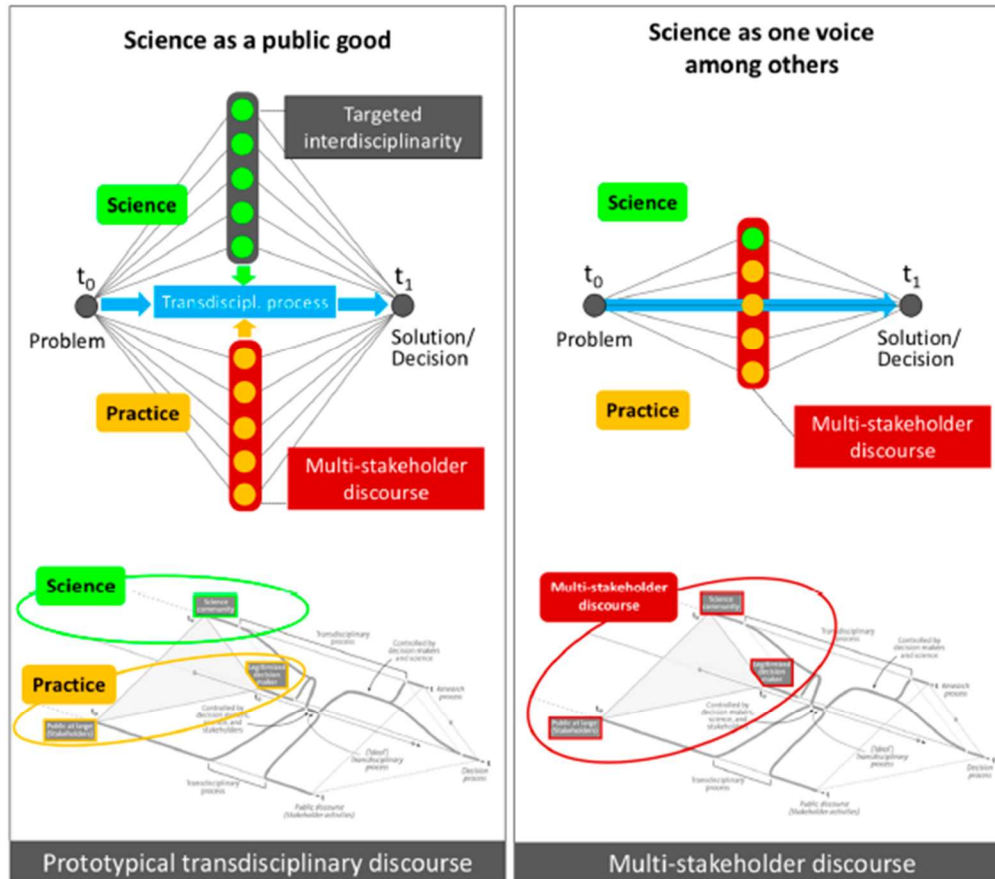

Figure 5. “Science as a public good” that serves all stakeholders (upper left) and “Science as one voice among others” (upper right) related to the discourse model of Td processes (see Figure 3) in which “Science” and “Legitimized Decision Makers” are included, and scientists induce a Td process including other stakeholders (when taking co-leadership), in turn inducing a process of mutual learning that includes representatives from all relevant stakeholder groups.

Article

The Normative Dimension in Transdisciplinarity, Transition Management, and Transformation Sciences: New Roles of Science and Universities in Sustainable Transitioning

Programme

9 Welcome

10 Parallel Sessions

Urban Green /Urban Mental Health /Fair opportunities and environmental justice

12 Lunch

1 Parallel Sessions

Climate Adaptation/Homelessness /Monitoring

3 Coffeebreak

3:30 final discussion

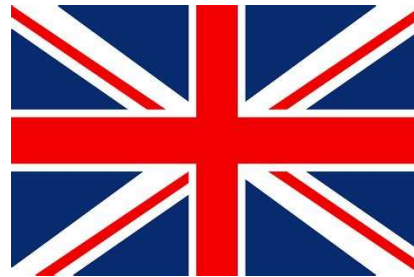

4:30 end

5:00 guided tour to DiPS_Lab

Guiding questions for the day

1. What constitutes the current body of knowledge and evidence of urban health?
.
2. What requirements of action and further research can be derived from the status quo of our knowledge?
3. What tangible approaches of action are we able to apply with reference to "Health in all Policies" in the Ruhr?

Any questions or comments?

Want to learn, share and co-create knowledge?
